

# Gustav Järn

## Game Design

### Work

#### Technical Designer, Fall Damage Studios, Stockholm, 2021 - Currently employed

I am currently working full time on **Alara Prime** as the as a Tech Designer using Unreal Engine 4

#### Mission Designer, Experiemnt 101, Stockholm, 2018 - 2021

Worked on **Biomutant** as the only Mission Designer in the company, where i collaborated closely with the art depatrment to create as fun of an experience as possible and code to impenet features. I worked both in Blueprints and Excel to create the missions

#### Junior Game Designer, Fast Travel Games, Stockholm, Januari 2017 - Februari 2018

Worked full time working on **Apex Construct** where my main focus was on everything associated with levels. Worked on all 12 levels that where shipped in the game.

#### Substitute Teacher, MediaGymnasiet, Nacka, Mars/April - 2016

Almost a year after graduation from my highschool I returned as a substitute teacher The subjects that I thaught were **Game Design** and **Scripting**.

#### Preparatory Teacher, FutureGames, Stockholm, April - 2016

I worked as a teacher for a Preparatory course that the FutureGames held for a month. For this course, I helped the students with **Unreal Engine BluePrint**, **Game Design** and **Level Design**.

#### Level Artist/Designer, TEOTL STUDIOS, Stockholm, Mars - 2016

For the month of Mars I joined TEOTL STUDIOS working on **The Solus Project**. I worked in a set time schedule for the final episode that was to be released about a month after I joined.
